

Simulation Training Opportunities for Southern California and San Diego
(LA region classes made possible due to a generous grant from the Southern California
Kaiser Permanente Community Benefits Program)

May 2010

May 21, 22

Level 2 training (intermediate)

8:00 – 4:30 each day (must attend both days)

13 CEUs

Location: Valley Presbyterian Hospital

15107 Van Owen Street, Van Nuys, CA 91405

\$300. Non-Refundable after May 7

We will take names for a waiting list, as the class is limited to 15 people.

Pre-requisite: Must have completed Level 1 training or commensurate experience.

Commensurate experience includes a clear understanding of simulation techniques and some experience working in high-fidelity simulation. Must have access to a simulator at your organization. We will allow a maximum of 2 people from each organization and need a balance of hospitals and schools. You will be notified of your acceptance to the class by e-mail. If you have any questions regarding this class, contact KT Waxman at kt@cinhc.org.

June 2010

June 5 (One Day Only)

Level 1 training (class designed for the novice simulation user)

8:00-4:30 each day

6.5 CEUs

\$75 Non-Refundable after May 29

Location: CSU Fullerton

Pre-requisite: No simulation experience is needed; this is a basic, novice hands-on class

Course description:

This introductory course is designed for healthcare experts new to simulation and provides an overview of simulation based education. This interactive course is the first in a series of CSA courses and is the prerequisite for all CSA courses.

Learning outcomes:

- Compare and contrast different types of simulation
- Identify the key elements of an effective simulation scenario
- Describe the importance and characteristics of effective debriefing
- Become familiar with basic attributes of patient simulator mannequin
- Describe the value and benefits of the California Simulation Alliance

June 16

Debriefing class

8:00 – 4:30

6.5 CEUs

Location: Mt. San Antonio College

1100 Grand Avenue, Walnut, CA 91789(Simulation Annex-Bldg 37)

\$75 Non-Refundable after June 9

Learning Objectives:

Scenario Writing/Debriefing:

- Describe importance of debriefing in simulation
- Develop skills to facilitate with unreceptive/non-participative students
- Develop teaching skills to facilitate debriefing toward positive outcomes

July 2010

July 14, 15

Level 1 training (class designed for the novice simulation user)

8:00-4:30 each day (must attend both days)

11.5 CEUs

\$75 Non-Refundable after July 7

Location: CSU Fullerton

Pre-requisite: No simulation experience is needed; this is a basic, novice hands-on class

Course description:

This introductory course is designed for healthcare experts new to simulation and provides an overview of simulation based education. This interactive course is the first in a series of CSA courses and is the prerequisite for all CSA courses.

Learning outcomes:

- Compare and contrast different types of simulation
- Identify the key elements of an effective simulation scenario
- Describe the importance and characteristics of effective debriefing
- Become familiar with basic attributes of patient simulator mannequin
- Describe the value and benefits of the California Simulation Alliance

July 17 (One Day Only)

Level 1 training (class designed for the novice simulation user)

8:00-4:30 each

6.5 CEUs

\$75 Non-Refundable after July 10

Location: CSU San Marcos

Pre-requisite: No simulation experience is needed; this is a basic, novice hands-on class

Course description:

This introductory course is designed for healthcare experts new to simulation and provides an overview of simulation based education. This interactive course is the first in a series of CSA courses and is the prerequisite for all CSA courses.

Learning outcomes:

- Compare and contrast different types of simulation
- Identify the key elements of an effective simulation scenario
- Describe the importance and characteristics of effective debriefing
- Become familiar with basic attributes of patient simulator mannequin
- Describe the value and benefits of the California Simulation Alliance

August 2010

August 7 (One Day Only)

Level 1 training (class designed for the novice simulation user)

8:00-4:30 each day

6.5 CEUs

Location: CSU Fullerton

\$75 Non-Refundable after August 1

Pre-requisite: No simulation experience is needed; this is a basic, novice hands-on class

Course description:

This introductory course is designed for healthcare experts new to simulation and provides an overview of simulation based education. This interactive course is the first in a series of CSA courses and is the prerequisite for all CSA courses.

Learning outcomes:

- Compare and contrast different types of simulation
- Identify the key elements of an effective simulation scenario
- Describe the importance and characteristics of effective debriefing
- Become familiar with basic attributes of patient simulator mannequin
- Describe the value and benefits of the California Simulation Alliance

August 13, 14
Level 2 training (intermediate)

8:00 – 4:30 each day (must attend both days)

13 CEUs

\$300. Non-Refundable after August 6

We will take names for a waiting list as the class is limited to 15 people.

Location: CSU San Marcos

Pre-requisite: Must have completed Level 1 training or commensurate experience.

Commensurate experience includes a clear understanding of simulation techniques and some experience working in high-fidelity simulation. Must have access to a simulator at your organization. We will allow a maximum of 2 people from each organization and need a balance of hospitals and schools. You will be notified of your acceptance to the class by e-mail. If you have any questions regarding this class, contact KT Waxman at kt@cinhc.org.

August 18
Moulage Class (intermediate)

8:00 – 4:30

6.5 CEUs

\$125. Non-Refundable after August 11 (includes \$25 lab fee)

Location: CSU Fullerton

This hands-on course is designed to enable participants to craft their own “moulage”, learn the concepts of this art, and understand how to protect the simulator from damage.

If you have any questions regarding this class, contact KT Waxman at kt@cinhc.org.

August 25, 26
Level 1 training (class designed for the novice simulation user)

8:00-4:30 each day (must attend both days)

11.5 CEUs

\$150 Non-Refundable after August 15

Location: San Rafael

Pre-requisite: No simulation experience is needed; this is a basic, novice hands-on class

Course description:

This introductory course is designed for healthcare experts new to simulation and provides an overview of simulation based education. This interactive course is the first in a series of CSA courses and is the prerequisite for all CSA courses.

Learning outcomes:

- Compare and contrast different types of simulation

- Identify the key elements of an effective simulation scenario
- Describe the importance and characteristics of effective debriefing
- Become familiar with basic attributes of patient simulator mannequin
 - Describe the value and benefits of the California Simulation Alliance

September 2010

September 22

Scenario writing class

8:00 – 4:30

6.5 CEUs

\$75 Non-Refundable after September 15

Location: Little Company of Mary

4101 Torrance Blvd, Torrance, CA 90503

Learning Objectives:

- Understand the California Simulation Alliance approved scenario template
- Describe the scenario writing process
- Translate storyboard to simulation scenario

September 25 (One Day Only)

Level 1 training (class designed for the novice simulation user)

8:00-4:30

6.5 CEUs

Location: Temecula

\$75 Non-Refundable after September 19

Pre-requisite: No simulation experience is needed; this is a basic, novice hands-on class

This introductory course is designed for healthcare experts new to simulation and provides an overview of simulation based education. This interactive course is the first in a series of CSA courses and is the prerequisite for all CSA courses.

Learning outcomes:

- Compare and contrast different types of simulation
- Identify the key elements of an effective simulation scenario
- Describe the importance and characteristics of effective debriefing
- Become familiar with basic attributes of patient simulator mannequin
- Describe the value and benefits of the California Simulation Alliance

October 2010

October 13, 14

Level 1 training (class designed for the novice simulation user)

8:00-4:30 each day (must attend both days)

11.5 CEUs

Location: Cal State LA

5151 State University Drive, Los Angeles CA 90032

\$150 Non-Refundable after October 6

Pre-requisite: No simulation experience is needed; this is a basic, novice hands-on class

Course description:

This introductory course is designed for healthcare experts new to simulation and provides an overview of simulation based education. This interactive course is the first in a series of CSA courses and is the prerequisite for all CSA courses.

Learning outcomes:

- Compare and contrast different types of simulation
- Identify the key elements of an effective simulation scenario
- Describe the importance and characteristics of effective debriefing
- Become familiar with basic attributes of patient simulator mannequin
- Describe the value and benefits of the California Simulation Alliance

October 19, 20

Magic in Teaching/Simulation Conference

San Francisco Marriott

Call for Abstracts deadline is July 15, 2010

More information at: www.cinhc.org

October 30

Level 1 training (class designed for the novice simulation user)

8:00-4:30

6.5 CEUs

Location: Temecula

\$75 Non-Refundable after September 19

Pre-requisite: No simulation experience is needed; this is a basic, novice hands-on class

This introductory course is designed for healthcare experts new to simulation and provides an overview of simulation based education. This interactive course is the first in a series of CSA courses and is the prerequisite for all CSA courses.

Learning outcomes:

- Compare and contrast different types of simulation
- Identify the key elements of an effective simulation scenario
- Describe the importance and characteristics of effective debriefing
- Become familiar with basic attributes of patient simulator mannequin
- Describe the value and benefits of the California Simulation Alliance

November 2010

November 5, 6

Level 2 training (intermediate)

8:00 – 4:30 each day (must attend both days)

13 CEUs

Location: CSU San Marcos

\$300. Non-Refundable after October 31

We will take names for a waiting list as the class is limited to 15 people.

Pre-requisite: Must have completed Level 1 training or commensurate experience.

Commensurate experience includes a clear understanding of simulation techniques and some experience working in high-fidelity simulation. Must have access to a simulator at your organization. We will allow a maximum of 2 people from each organization and need a balance of hospitals and schools. You will be notified of your acceptance to the class by e-mail. If you have any questions regarding this class, contact KT Waxman at kt@cinhc.org.

December 2010

December 8

Debriefing class

8:00 – 4:30

6.5 CEUs

\$75 Non-Refundable after December 1

Location: CSU San Marcos

Learning Objectives:

Scenario Writing/Debriefing:

- Describe importance of debriefing in simulation
- Develop skills to facilitate with unreceptive/non-participative students
- Develop teaching to facilitate debriefing toward positive outcomes

REGISTRATION:

Southern California: tamara@cinhc.org

San Diego (CSU San Marcos, Temecula) Diane: dbarnhar@csusm.edu

Please forward ALL CINHC Simulation payments to:

CINHC

715 Hearst Avenue, Suite 203

Berkeley, CA 94170-1948

Attn: Simulation Training Class

Please make note on the check which class you are registering for.

Refunds will be given with a 7 day written (E-Mail) notice.

NOTE: CINHC hopes all applicable/qualified faculties from both schools and hospitals will be included. Grant funding is available for those in need. If you are registering for multiple classes, please send in multiple checks (one check for each class).
